Laurent Blondy

Front-end Software developer

I am a front-end software developer currently working at Commit S.R.L. where I build web applications for companies.
Well organized person, problem solver, independent employee and strong team player, I love working on ambitious projects with positive people.
I strive for clean, reusable and maintainable code. A healthy code base is key to making great products!

WORK EXPERIENCE

Front-end Software Developer
Commit S.R.L.

10/2021 - Present   *Florence, Italy*

- Developed and redesigned the web version of Ascom's stock management desktop application, gradually replacing it in 450 hospitals across 15 countries.
- Rebuilt Stentle's "Just Commerce" CMS platform with full user experience redesign to release the beta version in 4 months.
- Provided mentorship to junior devs and interns.
- Introduced E2E testing with Cypress to reliably test the products in a production environment.

Front-end Software Developer
Cenozai

10/2019 - 10/2021   *Kuala Lumpur, Malaysia*

- Partnered with ML engineers to develop the React-Typescript based front-end for a data extraction and conversion engine, leading to a $1.7M revenue.
- Facilitated adoption of test-driven development, reducing monthly bug reports by 270%.
- Prototyped and Implemented an average of 30 new features per year.
- Optimized and redesigned the official website, increasing the traffic by 46% and the clickthrough rate by 85%.
